To figure it another way, one insider in bootlegging puts it thus: The Hoover \$40,000,000 became at least \$50,000,000 by cutting. Tack on 200 per cent for the runners, the shakedowns, the fixers, the leggers, and the risk of confacation, the graft and the profits, and it becomes \$150,000,000.

Some leading contrabandists say the Hoover estimate is low. Quebec prov-

ince alone is figured to have American trade in excess of \$10,000,000 for liquors. Then there is the amount coming through from Vancouver and Halifax, over the Mexican border, in from Cuba through the gulf, along the Pacific coast, and from the smuggling fleets along the Atlantic seaboard. One story among the leggers is that one syndicate alone at a meeting in Newark, N. J., divided \$8,000,000.

This is the way to make money. You can live on this land now and pay for it with your rent money; or you can cultivate it and make money by raising fruits, poultry and vege-tables. Every half acre contains four city lots and every acre eight city lots and every 5-acre tract 40 city lots. Tomorrow you should be able to cut up this land into city lots and each lot should sell for as much as you now pay for an acre. In the last few years hundreds of our purchasers have made big money by the increasing values of their land, which was bought with a few dollars down, balance like rent.

The other day one of our customers, who paid \$1,850 for five acres of land a few years ago, sold a lot off his piece, 100x150 feet, for \$8,000, and still has 41/2 acres left. Property we sold a few years ago at \$20 a front foot is now selling from \$150 to \$250 a front foot. Acres on the Northwest Side that sold a few years ago for \$800 are now selling for as much per lot as the purchasers originally paid for an acre. You can do as well. You can make money in the same way that these people made their money, and you need only a few dollars to start with.

Your teeth are only as healthy as your gums

The gums are the keys to health. You must keep them firm, strong and healthy if you would elude Pyorrhea and its attendant ills—loosened teeth.

Forhan's For the Gums counteracts the effects of harmful bacteria; hardens soft, tender gums, keeps them sound, firm and pink. Purthermore, it cleans and whitens the teeth and keeps the mouth fresh, clean and wholesome.

If you don't care to discontinue your favorite denti-frice, at least brush your gums and teeth once a day with Forhan's.

It is a preparation of proved efficacy in the treatment of Pyorrhea. It is the one that many thousands have found beneficial for years. For your own sake, make sure that you get it. Ask for, and insist upon, Forhan's For the Gums. At all druggists, 35c and 60c in tubes.

Year Beats ALL Records

From twenty-five taxicabs to a twomillion dollar organization in one vear is the worldbeating record of the Premier Taxi.

Many improvements still being made

Every person in the organization, from General Superintendent to mechanic and driver, has been checked and either is giving Premier Service or has been replaced.

Premier enlarged their Cleaning Sand Repair Department and are overhauling, painting and repairing every Premier Taxicab. They increased the \$25,-000 Switchboard by an extra \$35,-000. So even the unusually good service already given is being improved.

Chicago's great appreciation of a finer limousine service spurs Premier on to this even better service, and plans for still greater Premier service are under way.

KO HOT WATER.

Chicago, May 8,—[To the Legal Friend of the People.]—I moved into a geven building on April 25 and the rent began May L. The landbord had told me that the building would be completed on May L. It is far from being finished. The greatest inconvenience is lack of hot water. We feel we should be allowed componension. Could we deduct the cost of water heating from our rent? I.C.

The droupstance attending the renting a an ordinary apartment imply an agreement or part of the landbord to maintain the hot water heating plant. We cannot say whethe your case is exceptional without knowing all. recurstances of the wife might be a ing to deduct from your rent. The safer of for altering the alimony order upon course would be to supply the deficiency with gas and sue the landlerd for costs.

WASHINGTON. — Senator Henry Cabot Lodge, in a sensational speech, urged a larger navy. He practically gave Germany warning that it would be useless to negotiate for the purchase of the Danish West Indies. He pointed out that Germany is making large additions to its fleet and declared the United States may be called upon to defend the Monroe Doctrine in Brazil or some other South American state.

10 YEARS AGO TODAY

MAY 12, 1915. WASHINGTON.—The United States will demand that Germany make full atonement for the killing of Americans on the Lusitania and other vessels and give acceptable assurances that there will be no repetition of such outrages. Unless Germany compiles immediately with these demands the United States will sever diplomatic relations with the Berlin government. President Wilson is drafting a note setting out America's demands which were shaped at a three hour cabinet session.

Ten or fifteen pearling luggers are at anchor out in front of our hotel, where at this anchor out in front of our hotel, where at this moment we are severally draped over some low and rakish steamer chairs, shoking near-tobacco and emptying tall glasses of a chill and amber liquid. A number of goats which live under the botel and make an incredible amount of noise at night, are strolling back and forth along the grassrown straind, imparting to the scene a flavor of osmopolitan activity. From the jetty comes the sound of a winch that is hoisting trochus shell and beche de mer on board the St. Albans, upon which we depart three hours hence for Borneo and soints north. Beyond this news is scarce. But it a never anything else on Thursday Island.

A PLEA FOR THE LIBRARY.

Chicago. May 3.—Many Chicagoans must have read with a stir of pride that the last year's circulation of the Chicago public library was greater than that of New York's. How can Chicago maintain its standard, let alone extend its service, if it is not adequately supported?

University extensions are fine projects, public or private, but let's have a little financial support for the common, every day service of the library which reaches thousands of people who haven't the time or the money for university education.

TAXES \$6,000,000

New York, May 11.—[Special.]—An error in business procedure by the hankers negotiating the recent sale of the Dodge Brothers property to a group of bankers headed by Dillon, Read & Co. will result in an additional \$5,000,000 in taxes for the treasury department, making a total of \$12,000,000 in all on the sale. This was pointed out today by Fred L. Woodworth, collector of internal revenue for the First district of Michigan.

The board of directors of Dodge Brothers should have called a meeting and passed a motion to divide the assets among the stockholders and discontinue the corporation. Then the sale of the property themselves, a nontaxable proceedign, leaving the only tax that due from the police force on a pension two years ago after a period of service lasting 30 years, died yesterday at his home, 1322 Arthur avenue, following a heart attack. Since his retirement Mr. Cleary had been cennected with the investment banking house of Marshall Field, Glore, Ward & Co., as a watchman. He is survived by his widow, two sons and two daughters.

JOHN CLARK, one of the plenser settlers of Northfield township, was burjed yesterday from his home on Milwaukee avenue state road, near the Des Plaines river bridge. He was born in December, 1839, in Lincolnshire, England, and came to Cook county when about 20 years old, A widow, three sons, a daughter and eleven grandchildren survive him. The funeral was held yesterday afternoon on the lawn of the home where he had lived as a farmer and well-known citizen nearly 65 years and a great concourse of neighbors and friends attended.

If your business is large enough to be in the Loop, your office supplies are not a small item. Their quality affects everybody on your payroll. Their cost should concern you!

The casual purchase of supplies for your office can waste thousands of dollars a year. Supply orders should not go by favor. Brands should not be left to chance. Nor prices determined by your ability to pay!

One simple rule which you can put into effect this morning will stand-ardize your office supply purchases: Order from Horder. Not because we are the largest office supply house in the world, but because of the things that have made us so:

We stock 12,000 items. We know their quality, and understand their use. Our intelligent and interested service is unique in this line. Horder's one-price catalog is your logical source of supply for everything used in an office. It is issued three times a year. It will keep you posted on what to purchase—and what you should pay. See that someone in your office has the Horder catalog, or asks for one, today!

Offer your business to real prospects.

If you are the owner of a business, and wish to retire, your first concern should be the most effective way of finding a buyer in the quickest and most economical manner possible. You must, in order to receive a price commensurate with the earning power of the business, offer it to a number of people who would be interested in a proposition similar to yours, and who are financially able to satisfy your demands.

Tribune Want Ads will accomplish this task for you. The Tribune does more than distribute your message to over a million peo-ple on Sunday, and over 600,000 on week days; it delivers your Want Ad to people who are keenly aware of the buying opportunities offered them in The Tribune Want Ad Section, and whose prompt response makes sell-

Here is an example of Tribune Want Ad

Mr. A. Landel, 5046 Grace Street, used this Trib-ne Want Ad for a week, starting December 27. He sported that he received more than ten replies from sterested parties during that time, and that he sold is business to one of these people very shortly after is Want Ad expired.

FACTS

Recently the following dialogue occurred when one business man said to another who employs 10,000 men:

"How's business?

"Rotten!

"Closed down?

"No.

"Running on part time?

"No.

"What are you doing, storing goods?

"No. Oh no! It isn't as bad as that—we're just not doing as well as we ought to, or as we expected to."

Not as good as we expected—that about sums up the occasional round-table talk of a slump in business. As a matter of fact, business, on the whole, never was so good as it is today.

Never was the opportunity better to make your business what you want it.

Never were the times better set for progress.

This is what you have to build on:

Retail business in this country in 1924 was the biggest on record.

1925 is running ahead of it, and

April is the peak month so far this year.

The wealth of the world is far greater than in 1913, despite the tremendous waste of the war and the inflated value of the dollar.

Transportation facilities, the most efficient at any time in our history, are being used to their fullest extent. This brings the retailer closer to the market, closer to current prices, and leaves no place for the old-time custom of advance orders.

On this account, merchandising has changed to greater fluidity; quick delivery and quick trades are, and will remain, the order—smaller stocks and a safer foundation.

Wall Street prices are higher today than at any time in 1924.

The agricultural situation, which showed such a material improvement last year, indicates an even higher level of return to the farmer for the next harvest year.

Our foreign trade is the greatest in history, except during the abnormal post-war boom.

In short, considering the country's business balance sheet, the foundation for progress is sound.

pleteness, (4) in sheer desirability, (5) in cash value, and in (6) assured potential investment value.

\$500 is a lot of money to pay anybody to write a single ad. But if any one could write an advertisement that would do half-way justice to this magnificent property, such an ad would be worth several thousand dollars.

For if men could be made to realize the certainty and the enormity of the quick profits soon to be afforded them in this gigantic Community Development, we would figuratively sell out over-night. But most men prefer to believe in the fairy-lore of foreign lands. Comparatively few of us believe in our own Chicago. We seek phantom profits in foolish ventures in the far corners of the earth, and sneer at the safest, surest, proudest investment of all—the very land we populate and tread upon.

If you can write an ad that brings the full force of this great truth home to our people—if you can awaken us to a true realization of the fact that the Suburban Electrification of the ILLINOIS CENTRAL is destined to create the greatest Real Estate upheaval in Chicago'a history—if you can drive home to the man of moderate means that his rare opportunity for profit will be made easily available to HIM—you should win the \$5000.

And there are 54 other cash prizes besides the first prize. It is certainly worth your effort to enter this enlivening and instructive contest.

Each day, from now through Sunday, we will give

These attractive pattern floors

Home decorators find happy inspiration in the new pattern floors created by Armstrong's. See the latest designs this week in Chicago.

TRULY, a happy note in floor beauty was atruck when Armstrong developed these new and better floors of linoleum.

These new floors are unbroken by splintering cracks, by careless seams. Instead, they are smoothly and firmly comented in place over a heavy lining of builders' deadening felt, then waxed and polished until the rich colors and designs glow and glimmer softly.

They never need refinishing. They are springy, easy to clean, sanitary. They should last a lifetime.

Hundreds of beautiful patterns Parks Lindons for every decorative need

Today in old homes as well as new, sombre floors of wood are being replaced by these newer, brighter floors of Armstrong's Linoleum. And no wonder! There are colors and designs for every type of home, for every kind of room—soft, rippling Jaspes in two-toned greens, blues, grays, and browns; smartly colorful all-over designs; bolder Handcraft tiles and natural marble effects—hundreds of patterns created by Armstrong's expert designers to meet every decorative need.

Don't fail to see these new floors the next time you are shopping

See with your own eyes the new pattern floors that interior decorators and architects are adopting for really modern homes—the floors that make possible the new trend toward color and design in floors.

The latest designs are now showing at all the good department and furniture stores in town. You will also see many new and equally attractive patterns in Armstrong's Printe Linele

The patterns will delight you—the moderate

"To Meet Your Changing Mood"

DID you ever attend a recital at which the entire program was selected impromptu-to please your momentary desire? Did one eminent artist after another play, at your command, whatever composition your changing mood preferred? Yet, every night, you may summon the inspired genius of Mme. Zeisler, Levy, Liebling, and many others, to delight you in succession.

On the KIMBALL Reproducing Piano the spirit of each great artist seems to animate the keys, and reflect his very personality—so lifelike is the reproduction of his individual touch and technique, through

The Standard Oil Company (Indiana) has grown great over a period of years, by supplying an insistent demand for the type of service which it is supremely able This Company, always alert to utilize the most advanced thought in the refining and marketing of petroleum products has kept its service at all times a step ahead. "A definite scientific trepd in business

methods "says William Basset, "has developed during the last few years. To succeed permanently, an enterprise must move in harmony with this trend; to resist it is to insure ultimate failure."

The best business thought of today is scientific. This thought applies to industrial management, as well as to industrial production.

The Standard Oil Company (Indiana) maintains an unvarying standard in the goods it manufactures because it knows that by maintaining these standards a greater service can, and will, be rendered its patrons. Its selling prices are based on costs. This policy enables it to sell its standard, high-quality gasoline and oils at consistently low prices, and at the same time to pay adequate wages to its employes and a proper return to its stockholders.

Only by such well rounded skill in management can lasting service to society be rendered. Labor, capital, consumer demand and selling price are all inextricably interwoven. Not one of these factors can be ignored if an industrial organization is to remain in business.

At times these elements seem to be in conflict. Customers want lower prices. labor wants higher wages, stockholders want more return from their investment. But an organization efficiently co-ordinated as is the Standard Oil Company (Indiana) finds it possible to maintain an equitable balance, so that in the end it renders the greater good of the greater number.

The Standard Oil Company (Indiana) applies its ability in organization; in production; in handling capital; in management of labor and in all-around efficiency to the service of society. This Company has added vastly to the security, power, opportunity and comfort of life as we know it today. It has made possible the harnessing of millions of machines, and of hundreds of thousands of motors, to transform and improve every phase of human existence.

If you owned your dealers' stores would your present advertising suit you?

"ONE of the difficulties in selling national magazine space is that almost any group of dealers prefers newspaper advertising," said a man who represents a prominent magazine with country-wide circulation. "Dealers do not understand the principle of national advertising," he explained.

Survey after survey proves that dealers want newspaper advertising. Whenever their vote is taken, their answer is, "Give us newspapers."

The manufacturer may take issue with this verdict. He may say that dealers do not understand his sales and advertising problems. He will admit that the dealer has the opportunity to know, first hand, what kind of advertising mediums create the largest number of sales over the counter.

But, the manufacturer may ask, what about dealer influence, prestige, expense, coverage?

Answer These Questions from the Viewpoint of Your Dealers

Suppose, however, that he owned the stores that sell his products to the ultimate buyer.

Then wouldn't the only kind of advertising that counts be the kind that his experience had proved would sell the most merchandise? Wouldn't consumer demand be the yard stick by which he measured the prestige of his advertising?

Wouldn't common sense urge him to confine advertising circulation to areas where he had established retail outlets?

Wouldn't he build his business faster and more safely by concentrating his stores within rich areas instead of spreading them over wider territory? Wouldn't this make possible more powerful and intensive advertising at a lower cost per store than if distribution was spotted?

Many manufacturers have been asking themselves these questions, and finding the correct answer. The latest tabulations show that the country's fifty leading advertisers, with annual appropriations ranging upwards of a half million dollars, spend \$2,365,000* more for national advertising in newspapers every year than they spend in thirty leading magazines.

Smaller advertisers also are finding newspapers to be the most profitable mediums they can use.

For example, three manufacturers, with scattered distribution in three different fields of selling, decided against stretching a limited advertising budget across the country. Instead, they would pick compact, rich areas and concentrate their sales and advertising efforts on them —building them up one at a time.

For their first drive, these three manufacturers selected The Chicago Territory—Illinois, Indiana, Iowa, Wisconsin and Michigan. Their reasons were definite and four-fold: (1) It has 17% of the country's population. (2) It makes 19% of the total income tax returns. (3) Yet it covers less than 9% of the country's area, and (4) A single newspaper dominates and influences the entire five states.

The first year, The Chicago Territory sales of these manufacturers (which totaled in the millions before the drives began) jumped 57%, 72% and 175%. Their dealer forces were increased during the same period in this area, 89%, 43% and 414% respectively.

Isn't This the Kind of Prestige and Dealer Influence You Want?

There is nothing intangible about that kind of dealer influence. Here is prestige put into the concrete form of amazing gains in sales volume and profits.

These are but three examples from a volume of evidence proving that the kind of advertising you would choose if you were in your dealer's place is the kind that will pay you best as a manufacturer.

If you are interested in advertising that will sell your goods in a larger volume at a lower cost per unit of sale, a Chicago Tribune man has a story that will interest you. He has a sound, workable plan to put before you that is producing astonishing results for other manufacturers. It may be as profitable to employ in your business. Why not send for him?

*This figure is based on the estimates compiled by the Bureau of Advertising of the American Newspaper Publishers' Association and on estimates compiled by Crowell Publishing Company, which included all space used in thirty leading magazines during 1923.

Reed Furniture for Summer Homes In a Selling Which Brings Remarkable Values

Furniture as attractive-looking as this may be used not only at the summer cottage, but in the city apartment with equal success. It introduces a lighter touch to the room where it is used, especially suitable to summertime.

And it is so thoroughly well made, so good-looking that it is in perfect harmony, with other furnishings. Because of this selling it is possible to choose it at prices interestingly moderate. Assortments are inclusive in variety.

Featured in These Groups Are the Following—

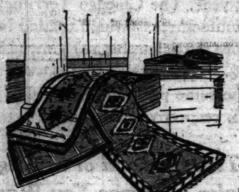

Reed Chairs and Rockers, \$14.50 to \$35 Each Ferneries of Reed, \$10.50; Tables, \$17.50 to \$58 And Comfortable Chaises Longues, \$30 to \$58

The richness of the finishes—bronze, black, apple green, sandstone, polychrome, gray enamel, as well as the pewter lacquer effect—add much to the attractive appearance of these pieces.

These shades are set off with charming effect by cretonne or tapestry covers in striking pattern and combination of colors. Several pieces of furniture, typical of the groups, are sketched.

Will Stage Own Derby.

Not only does the Ogden Park Wheelmen support races promoted by other organizations, but the club will conduct a Derby of its own at Sherman park, June 21. This event is sanctioned by the Amateur Bicycle League of America and the regular list of events will be held.

Judging from the large number of out-of-town entries being received, local riders must be at their best to keep the banner prizes in Chicago. While none of the out-of-town teams have enough strength to win the team trophy as individuals, they are almost certain to cut in on the long end of the prizes. So many nominations are already in from out-of-town experts and so many inquiries being answered

The board of control of the western division of the A. B. L. of A. will meet que week from tonight to arrange handicaps and perfect other details of the event. Contestants are again warned entries close on Sunday at midnight and all must be registered with the A. B. L. of A. This registratio can be made at 2846 West North avenue with Julian T. Fitzgerald.

on the ham and eggs.

After breakfast Mehlhorn loafs half an hour. Then he plays 9 holes of golf. After that there is practice and instruction until noon. In the afternoon he plays nine more holes, or perhaps 18, does some more practicing, gives a few lessons and has dinner. At 9:30 o'clock in the evening Mehlhorn is seeking the feathers and 'tis said at the club he sleeps like a log.

Therein is the great secret of the game, I think.

Eats Little, Drinks Less.

Mehlborn watches his diet. His meals are plain, light, and at regular hours. And yesterday a friend of his suggested that there be a little glass of ginger ale with perhaps a stick or a stone in it and Mehlborn flatly refused. He's sticking to the letter of the lary on that subject.

Now that's the way an aspirant for the national open crown trains. I do not believe many others have gone at the training quite as rigidly, though many have but it is juminated and refer.

To Wear Coventry Colors.

The Derby will find Flying Ebony making his first start of the season and he will carry the silks of Gifford A. Cochran of New York, the same silks unfurled in victory by Coventry in the Preakness last Friday. He is a son of The Finn-Princess Mary and as he scored numerous victories on the Downs course last year as a 2-year-old, he will be thoroughly at home on the racing strip over which the Derby will be decided.

Except for a clash between Chicago's two leading Derby candidates, Kentucky Cardinal and Step Along, the Derby trial stakes a \$2,000 allowance affair at a mile here tomorrow will afford but a triffing line on the merits of the thirty or more candidates still regarded as possible Derby starters.

"Murad is my cigarette harmony"

"A Murad, in my opinion, is like a perfectly tuned instrument, played by a master musician. It is mellow and soothing. Other cigarettes that I've tried to amoke are harsh and irritating. So I regard an all-Turkish Murad as my cigarette harmony." L, H. Lieneman. 4223 Broadway, Chicago, Ill.

WHEN LIBERTIES SOLD TO NET 6%

A FEW years ago great demand for capital led investors to sell Liberty bonds in large amounts. As a result, the world's highest grade bonds could be bought to yield 6%. An extraordinary investment opportunity.

Today, the scarcity of capital in Europe presents a similar opportunity. Consider the 8% Mortgage Loan Gold Bonds (payable in U. S. gold) of the City of Graz, second city of Austria. A municipal bond protected by pledge of the credit and unlimited taxing power of a city of 157,000 which has been in existence for a thousand years. A bond additionally thousand years. A bond additionally secured by a first mortgage on revenue producing public utilities such as electric light, gas and water systems, worth double the bond issue.

Only the need for capital makes it possible for these bonds—protected by every safeguard—to be offered at a price to yield 8.17%.

Properties: Utilities Power & Light Corporation, incorporated in Virginia, directly or through subsidiaries public utility systems operating States of Iowa, Minnesota, Wisconsin, Illinois, New Jersey and Rhode Island. As companies controlled are Interstate Power Company, a Delaware Corporation, we gether with subsidiaries operates in southern Minnesota, northeastern Iowa, sout Wisconsin, and northwestern Illinois, and owns the entire Common Stock of Dubug Wisconsin, and northwestern Illinois, and owns the entire Common Stock of Duhuque Electric Company. Dubuque, Iowa, and all outstanding securities of Interstate Power Co. of Wisconsin; Eastern New Jersey Power Company, operating in the rapidly growing communities along the Atlantic Coast of eastern New Jersey within commuting distance of New York and Philadelphia; Atlantic Coast Transportation Company, Electric Light & Power Company of Hightstown, and Jamesburg Electric Company, all in New Jersey; and Colonial Gas and Electric Company, owning more than 88% of the Common Stock of Newport Electric Corporation, Newport, R. I. The systems furnish over 300 communities with one or more of the following public utility services: Electric light and power, gas, steam heat, water, electric railway and motor coach transportation. The population served is about 650,000. All the principal franchises of the companies are favorable and contain no burdensome restrictions. Over 88% of the net income of the properties is derived from the sale of electric light and power.

In addition to the properties in the system operating as public utilities, the stockholders of Utilities Power & Light Corporation have a valuable equity in the Utilities Building Corporation, owning a modern 12-story office building in the "Loop" district, Chicago, Ill.

Is Your Office as Comfortable as Your Home?

THE average city man spends more for his waking hours in his office than in his home...

The Straus Building—Chicago's Finest Office Building—has been planned with the above thought in mind. It is the policy of the Building Management to render service which shall make each tenant as comfortable in his office as he is in his home... Every few days the Housekeeper of the Straus Building visits every office to make note of its every office to make note of y suggestions applying either to tenant's own space or to the liding operation generally.

This building sets a new standard f service to tenants. The operation directed by an Operating Manager—comparable to the staff captain of n ocean liner. He is assisted by the lousekeeper or Inspectress of Service on the one hand, and by the aperintendent of Service on the ther... The policy is to seek out the tenant's wishes and suggestions, ather than to wait for the tenant's

Every suggestion is immediately ken up, and whenever possible, the achinery is set in motion to ex-edite further perfection of service.

The public is cordially invited to ide and inspect the Street Building

FIRST AND REFUNDING MORTGAGE 5% GOLD BONDS, SERIES A

Bearing interest from March 1, 1925, payable March I and September I in New]York City

Redeemable, at the option of the Company, as a whole or in part, on ninety days' notice, on any interest payment date, as follows: On or after September 1, 1944, and prior to September 1, 1971, at 105% and accrued interest: on or after September 1, 1971, at 100% and accrued interest.

Coupon Bonds in denominations of \$1,000, \$500 and \$100, registerable as to principal. Fully registered Bonds in several denominations of either, interchangeable

The issuance of these Bonds has been authorized by the Interstate Commerce Commission.

BANKERS TRUST COMPANY AND BETHUNE W. JONES, TRUSTEES

Wm. R. Kenan, Jr., Esq., President of the Florida East Coast Railway Company, has summarized for us as follows his letter describing this issue:

Florida East Coast Railway Company owns \$10 miles of road, including 12 miles under construction. Its main line extends from Jacksonville, where connection is made with the Atlantic Coast Line, Southern Railway and Scaboard Air Line Systems, to Key West. It is the only railway providing transportation facilities along the east coast of Florida and farnishing facilities, by car ferry steamers, for through freight traffic between points in Cuba and the United States. The physical condition of the railway and of its equipment is excellent. All the viaduct and bridge construction on the Key West Extension, extending about 125 miles from the mainland at Florida City to Key West, is of steel and concrete. The entire proceeds of these Bonds are to be applied to a comprehensive program for the improvement of the Company's property, including the construction of a 29 mile double trach cut-off on the main line between St. Augustine and Bunnell, and approximately 93 miles of new second main track. This new construction will complete the double-tracking of 184 miles of the main line and, it is estimated, will increase the carrying capacity of the line by at least one hundred and fifty per cent.

When these improvements are campleted more than \$25,000,000 city to the line by at least one hundred

When these improvements are completed, more than \$85,000,000 cash, including the proceeds of these Bonds, will have been spent upon the construction and improvement of the property, as contrasted with a total outstanding funded debt, including this issue, of \$47,175,00.

The Company's gross operating revenues, income available for fixed charges, total fixed charges and net income during the past eight years have been as follows:

During the eight years shown in the above table, the Company's income available for fixed charges averaged \$2,756,955 annually, or 3.68 times the average annual amount of such charges. The income available for fixed charges in 1924, without any benefit from the improvements and additions to be procided by the proceeds of this issue, amounted to nearly twice the annual interest requirements on the Company's funded debt to be outstanding after the issuance of these Bonds.

The Company's net income available for dividends in 1924, after giving effect to the change in capital structure made in that year, was equivalent to over 8.10% on the \$27,500,000 par value of capital stock now

The First and Refunding Mortgage is a direct first lien on 194 miles of road (including 12 miles under extruction), and a second lien on 516 miles, subject only to 512,000,000 First (closed) Mortgage 55% Bonds. Mortgage will also be a first lien on the new 29 mile cut-off, making the total mileage under the Mortgage miles, of which 223 miles will be covered as a first lien.

THE ABOVE BONDS ARE OFFERED FOR SUBSCRIPTION, SUBJECT TO ISSUE AS PLANNED AND TO APPROVAL BY COUNSEL, AT 94%% AND ACCRUED INTEREST, TO YIELD 5.30 PER CENT.

Subscription books will be opened at the office of J. P. Morgan & Co., at 10 o'clock A. M., Tuesday, May 12, 1925. The right is reserved to reject any and all subscriptions, and also, in any case, to award a smaller amount than applied for. The amount due on allotments will be payable at the office of J. P. Morgan & Co., in New York funds, the date of payment to be specified in the notices of allotment, against delivery of temporary Bonds exchangeable for definitive Bonds when prepared.

Real Estate Exchange **NEW ORLEANS** Will Be Sold

By Public Auction

Without Limit or Reserve

In Blocks or As a Whole 344.67 Acres of Lake Shore Land

Within the City Limits of New Orleans

This land is within the city limits-41/4 miles from the commercial center of New Orleans at Royal and Canal Streets. It is bordering at the Lake Pontchartrain end of the Dock Board's property, in which the \$20,000,000 Industrial Canal is located, and behind the proposed seawall. It is reached by vehicular roads, is about 1.500 feet from a car line and is skirted by the Southern Railway.

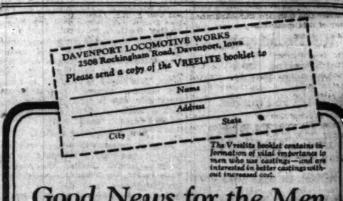

This property is drained and cleared and is provided with city water and electric lights. It offers a magnificent inducement for industrial or residential development.

Small Local Conception of Its Value

The Gulf Coast is now just at the beginning of its development. There is small conception locally of the real value of this property. Why not use your knowledge of the history of Florida values and try to acquire this land? It would be a real bargain at \$2,500 an acre. Sellers will carry a 6% first mortgage of \$375,000, Remember, this land is to be sold without limit or reserve. For terms and other details telephone Dearborn 1470 and ask for John H. Bernhard or
